Boxer

modular storage

Step 1: Choose size

Boxer is a comprehensive modular storage system designed for flexibility in all office environments with the intention to reduce the storage footprint

The interchangeability of drawer fronts and inherent modularity means that units can be stored on top of one another to create varying storage heights

This system features the latest accessories in file management including OHS features such as anti-tilt mechanisms and adjustable glider feet

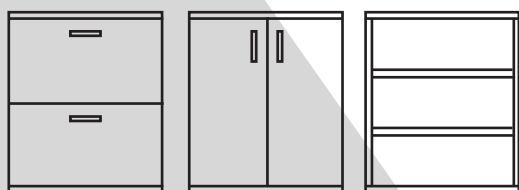

1230 (1188 unit + feet)

942 (900 unit + feet)

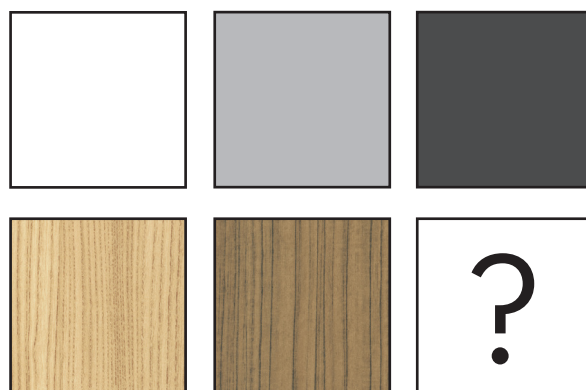

654 (612 unit + feet)

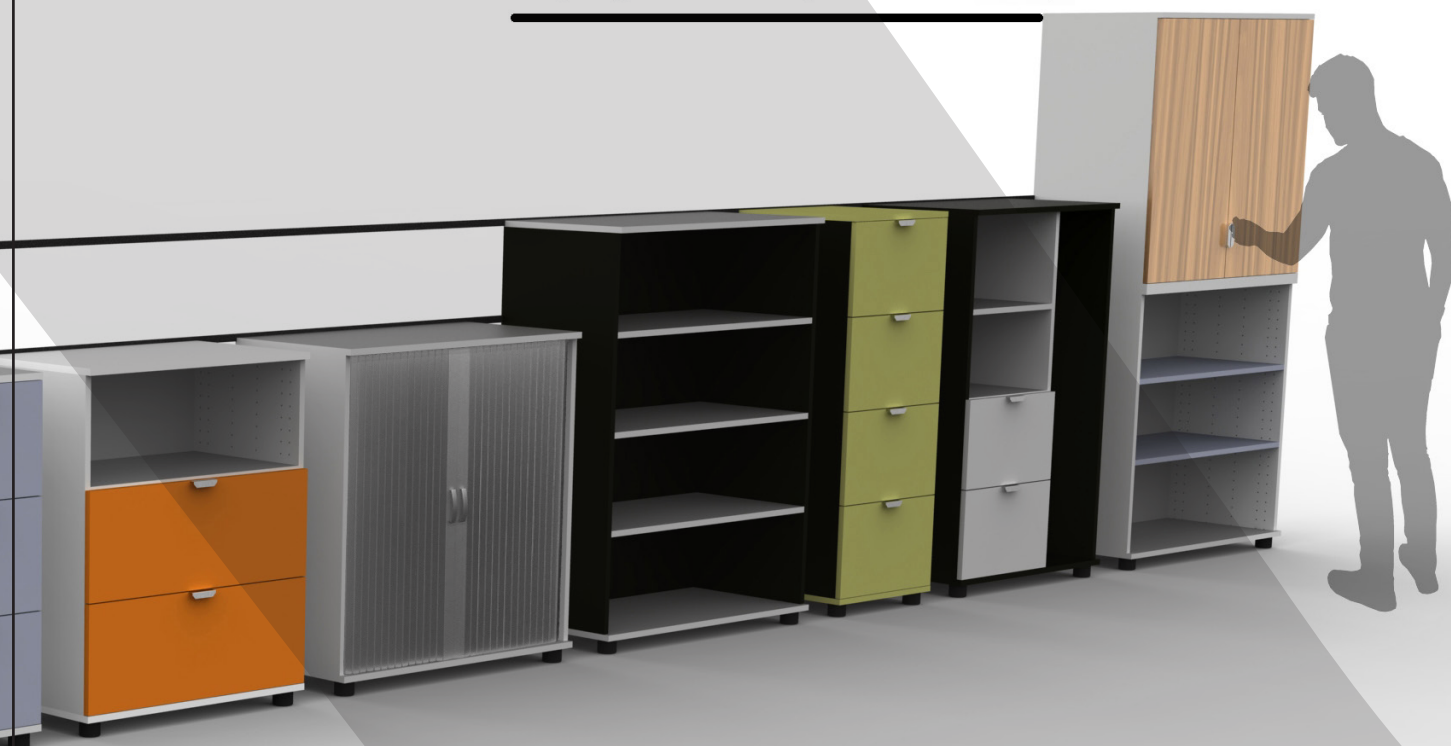

Step 2: Choose front

Step 3: Choose colours

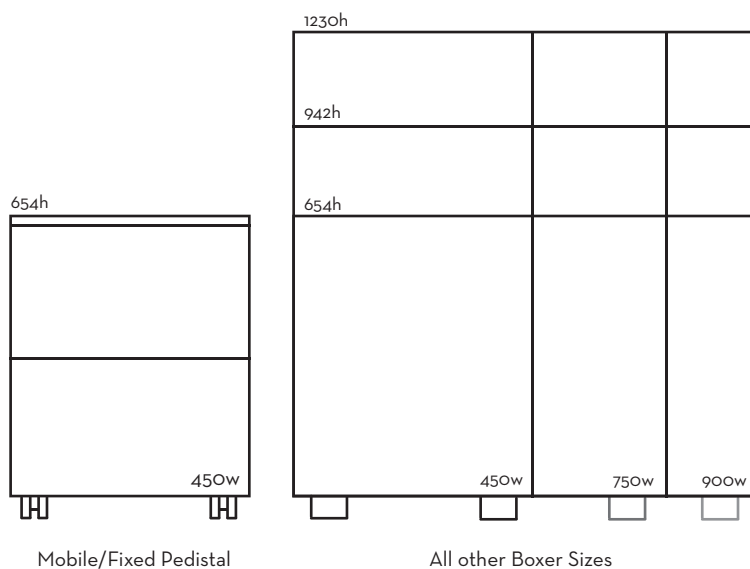

1842 (900 unit + 900 unit + feet)

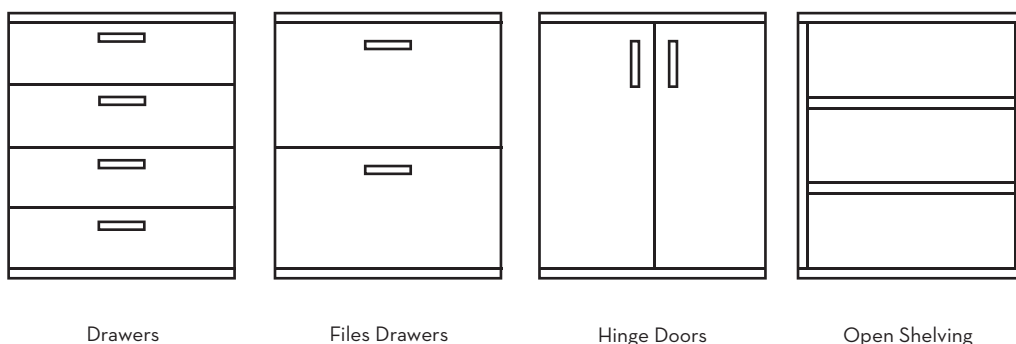

Size Options:

All 450mm Deep

Face Options:

Standard Features:

- Height adjustable gliders
- Anit-Tilt Mechanism

Optional Features:

- Heavy Duty PU Swivel Castor
