

# Superior Workspace Seating

Performance | Hospitality/Healthcare | Specialty

Buro Australia Range 2026

BURO POLO DRAFTING STOOL (P42)

# Seating for our changing world.

Sit well. Live better.  
Work smarter.

As Australasia's most preferred brand for workspace seating, we take our responsibility for people's health and wellbeing seriously. Our product design is informed by human-centred research, ensuring our chairs are ergonomically calibrated to precision for almost every purpose, every space and every body type. In today's world of flexible working, proper ergonomic support is essential for maintaining good posture and working smarter, no matter where you choose to work. Browse through the following pages to discover our range and help make a difference to the way people sit, work and live today.

Specialist expertise.

For 30 years, Buro has been synonymous with innovative workspace furniture solutions, setting the standard for world-class quality and service. Designed for the way people work and live, Buro's commitment to ergonomic excellence and sustainability is reflected in its internationally acclaimed designs and environmentally responsible practices. With a collaborative approach, Buro partners with interior designers and architects, bringing specialist expertise to create functional, stylish, and future-focused workspaces.

Altogether better.

We're able to provide contemporary and tailored seating solutions for any workspace, whether you require task or executive chairs, conference or public seating, visitor chairs, or even stackable chairs and stools. Our seating range is among the widest in the industry and through our partnerships, we have developed a strong position as a specialist seating brand in healthcare, aged care and education. We're committed to sustainability, and our products are designed and manufactured with environmental responsibility in mind.

*When you choose Buro, you can be confident of seating that not only cares for people's health and physical wellbeing, but also our planet.*

# Buro, working towards sustainability.

*We believe sustainability should apply to all aspects of how you work. From your work-life balance, to the space you work in, the furniture that supports you, and the tools you use to get the job done.*

## Greening Australia.

Buro proudly supports **Greening Australia**.

Greening Australia has been restoring Australia's unique landscapes and protecting biodiversity at scale through collaborative, science-based programs for over 40 years. [www.greeningaustralia.org.au](http://www.greeningaustralia.org.au).

## Sedex Member.

As a **Sedex member** we are committed to being a responsible business, sourcing responsibly, and improving ethical standards and working conditions within the supply chain.

## Trees That Count.

To mitigate our CO2 footprint over the next 50 years, we're working with **Trees That Count**, a conservation charity dedicated to planting native trees.

By funding the planting of native trees, we're supporting efforts to increase biodiversity across New Zealand.

## Transporting our chairs in cartons.

Buro research shows that **shipping and transporting cartons** instead of fully assembled chairs helps reduce carbon emissions. Cartons take up 67% less freight volume than a fully assembled chair, meaning lower overall carbon emissions.

## FSC® Certification.

An **FSC® certification** demonstrates that an organisation responsibly sources any wood or forest products used in its products. We have FSC® 100% wood certification on selected products.

Look for the FSC® logo in this catalogue.

# International Certifications and Standards.

*We stand proudly behind our products, values and operational excellence. With every chair, we proactively work with a range of certifications and standards to ensure our products are of the highest quality and safety for both you and the environment.*

## AFRDI Certifications.

**Australasian Furnishing Research & Development Institute (AFRDI)** is an independent and not for profit organisation at the forefront of furniture testing and certification in Australasia. Certification by AFRDI shows that the product has undergone rigorous testing to determine its safety.

**AFRDI Green Tick**  
Certifies that products meet expectations for the ethical sourcing of materials free from harmful toxic chemicals and features sustainable design, which minimises waste and encourages the responsible use of water and energy in their manufacture.

**AFRDI Blue Tick**  
Certifies that the chair withstood strength, durability, stability, flammability, workmanship and safety requirements and is of excellent quality. This can also include ergonomic and ignitability requirements.

**AFRDI Blue Tick 142 Rated Load**  
Most commercial seating standards only accommodate people weighing up to 100-110 kg. The AFRDI Blue Tick 142 rated load tests and certifies products with a higher maximum load.

This standard is designed for weight rating of 'heavy duty' office chairs and consists of four levels of certification:

**135 kg Single-Shift** – For users up to and including 135 kg, for single 8-hour shift operations.

**135 kg Multi-Shift** – For users up to and including 135 kg, for multi-shift operations

**160 kg Single-Shift** – For users up to and including 160 kg, for single 8-hour shift operations.

**160 kg Multi-Shift** – For users up to and including 160 kg, for multi-shift operations.

**185 kg Multi-Shift** – For users up to and including 185 kg, for multi-shift operations.

Buro has achieved AFRDI certification on many of our products. AFRDI certificates can be found on the relevant product pages on our website.

## GREENGUARD Certifications.

The products that we use to build and furnish our spaces can have a significant impact on indoor pollution levels. All products have airborne chemicals, commonly referred to as volatile organic compounds (VOCs), which are used to manufacture and maintain building materials, interior furnishing, cleaning products and personal care products. These VOCs can be highly toxic in large quantities.

**GREENGUARD** is one of the world's most respected environmental certifications. Products that have achieved GREENGUARD certification have passed rigorous and comprehensive third-party chemical emission standards and are backed by science to have safe emission levels.

**GREENGUARD Gold** is a certificate for products that meet even more stringent testing requirements. The certification includes safety factors to account for sensitive individuals (such as children and the elderly) and helps ensure that a product is acceptable for use in environments such as education and healthcare facilities. In addition to limiting emissions of over 360 VOCs and total chemical emissions, GREENGUARD Gold certified products must comply with requirements of the State of California's Department of Public Health (CDPH) Standard Method for the Testing and Evaluation of Volatile Environmental Chambers, Version 1.2 (2017) (also known as California Section 01350).

By choosing GREENGUARD certified products, you create a healthier indoor environment for your home, office or organisation and reduce chemical exposure.

Buro is proud to meet this standard on many of our chairs. You can find the GREENGUARD or GREENGUARD Gold certificates for our chairs on the individual product pages on our website.

## ISO Certifications.

ISO certifications are part of Buro's commitment to quality, environment, and safety management systems.

Most Buro chairs are manufactured in a factory with one or more internationally recognised ISO certifications.

ISO is the International Organisation for Standardisation, an independent non-governmental organisation. Through its members of national standards bodies, ISO brings together experts to develop standards, based on market-relevant knowledge.

### ISO 9001: Quality Management Certification

The ISO 9001 standard exists for quality management, ensuring a manufacturer is focused on continual improvement, quality control, environment and customer satisfaction.

### ISO 14001: Environmental Management Certification

The ISO 14001 environmental management standard helps manufacturers minimise how their operations negatively impact the environment. This includes identifying negative impacts, defining controls to prevent and reduce pollution, and complying with legal requirements. Certified manufacturers quantify improvement of environmental performance through efficient use of resources and reduction of waste.

### ISO 45001: Occupational Health and Safety Management Certification

The ISO 45001 occupational health and safety (OH&S) management system standard, highlights the importance of effective processes for identifying hazards, controlling risks, taking advantage of opportunities and the continual performance evaluation and management of the OH&S system.

An ISO 45001 certification enables a manufacturer to demonstrate a system is in place for occupational health and safety and staff physical and mental health.

# Buro Elan synchro chair, elegant and ergonomic.

*Available in a black or light grey frame to complement  
the workplace or home office interior.*

*"A very good seat featuring a synchronised mechanism.  
It will suit a wide range of users. Highly recommended"  
- Andrew Wilson, Osteopath & Ergonomist*

Scan the QR Code to  
view the Buro Elan  
chair in your space.

BURO ELAN (P28)

# Endorsed by the Australian Physiotherapy Association.

*Selected Buro chairs have been assessed by APA  
(and meet or exceed their guidelines for ergonomic chairs).*

Look for the 'Endorsed by APA' logo throughout the catalogue.  
The Buro Tidal Mesh Back chair, has been ergonomically  
assessed and endorsed by the APA.

# Anti-microbial and Anti-bacterial fabric options.

Feel safe with Dillon PU & Buro SafeTex fabric, available on selected Buro chairs.

Dillon PU and Buro SafeTex fabric are ideal options for use in educational, healthcare, aged care, home and office environments.

**DILLON PU**  
Anti-Microbial Fabric

**BURO SAFETEX**  
Anti-Bacterial Fabric

Dillon is a heavy-duty anti-microbial polyurethane fabric with Silver-based Ion technology. Dillon PU is easy to wipe down, and designed to withstand high wear and tear and years of use.

The anti-bacterial treatment on Buro SafeTex fabric suppresses 3 bacteria: Staphylococcus aureus, Klebsiella Pneumoniae and Escherichia coli (E. coli). Available in 5 smart colours.

### DILLON PU COLOURS

### BURO SAFETEX COLOURS

1. Next day dispatch. 2. 7-14 working days. 3. Extended lead times apply. 4. Excludes upholstery. Guarantee conditions apply, see bureoseating.com.au. 5. Furntech - AFRDI approved for users up to & including 135kg. Static Load tested to 410kg. Any Static Load test is a strength test which simulates higher than normal dynamic loads that may occasionally be applied to a chair by the user. 6. Measured from back lumbar to front seat edge.

Dillon PU lead time: Varies for each product, please see individual product listings. SafeTex Fabric lead time: 7-14 working days. For further information and Buro SafeTex and Dillon PU specifications, please view our Fabric Swatch Card on bureoseating.com.au/resources/.
